

S. Karthikeyan, or SK as he is better known, has 19 years of experience in designing, leading and delivering world-class software solutions. His specialties are Software Development & Delivery, Product Ideation, Innovation & Strategy, Enterprise & Solution Consulting, Bootstrapping a product team, Data Science Solutions, and Digital Transformation. He was leading various product solutions at companies like Microsoft India R&D, HCL, and Fifth Gear. The opportunity to build technically complex solutions is what runs through his mind all day, and probably keeps him awake at night!

Whether he is challenged to ramp up a new team or accelerate the productivity of the existing teams, SK does it all without batting an eyelid. He is the man behind embedding strong work ethics and drilling in the importance of collaboration and teamwork at Suyati. He is also the real force that encourages people in the company to do extensive R&D in the latest technologies. SK ensures that experimentation and innovation continue unfettered at Suyati. He is leading the team that is developing a Digital Transformation platform using AI, ML, IoT and Big Data technologies. He is also responsible for the Big data and AI initiatives across the organization.

Apart from being addicted to work, SK loves mentoring start-ups, actively participating in organizations like Nasscom-Kerala, TiE/TYE, and TYE, playing chess or watching a game of Basketball. But his true passions are travel and automobiles. He holds a Masters Degree in Computer Application and Advanced Certificate in Information Technology Management from Indian Institute of Management, Kozhikode. He is a certified Executive Data Scientist by John Hopkins University.
